UPGRADING OPENING PROTECTIONS

(WINDOWS)

IF YOUR HOME HAS OLDER WINDOWS, CONSIDER UPGRADING YOUR WINDOW PROTECTION BY INSTALLING IMPACT-RATED WINDOWS TO HELP PREVENT YOUR WINDOWS FROM BREAKING DUE TO HIGH FORCE WINDS AND FLYING DEBRIS, AND KEEP WIND AND RAIN FROM ENTERING YOUR HOME.

FOLLOW THE 3 STEPS TO STRENGTHEN YOUR HOME AND SAVE ON INSURANCE

STEP 1

Get Your FREE Wind Mitigation Inspection

Before anything else, you must apply for and complete the required MSFH wind-mitigation inspection.

This professional inspection identifies what upgrades your home needs to better withstand hurricanes.

STEP 2

Apply for the MSFH Grant

Once your inspection is complete and you've been approved for a grant (up to $10,000), you can decide which eligible improvements to move forward with.

Missing Hurricane Resistant Features

	Roof-to-Deck Attachments		Roof-to-Wall Attachment
	Secondary Water Resistance (SWR)	X	Opening Protection

STEP 3

Choose Your Upgrades

- **Talk to your insurance agent**
- **Talk to your local Florida contractor**

You choose your opening protection:

- **Impact-rated windows.**

IMPACT RATED WINDOWS

AVERAGE COST OF IMPACT WINDOWS*	$900 - $1,750 PER WINDOW
Pensacola, Jacksonville, Miami, Melbourne, Tampa, Naples	

YOUR SAVINGS TBD

Last year, on average, thousands of Florida homeowners saved $932. *Your savings will differ.*

DO THE MATH

- **The maximum MSFH grant is $10,000**. Impact-rated windows replacements can cost more — but the grant can significantly reduce your out-of-pocket expense.
- **This wind-mitigation upgrade can reduce your insurance premium. Contact your insurance agent or carrier for your specific savings.**
- **Protect what's inside your home with new windows**.
